PROFESSIONAL EXPERIENCE

MARSH MCLENNAN AGENCY

MARKETING DATA ANALYST

JUNE 2025

- Built a five-segment audience framework for each line of business using Salesforce and ZoomInfo data, identifying growth patterns linked to stronger win outcomes and highlighting an untapped opportunity among accounts transitioning between size tiers.
- Conducted data quality and enrichment research across Salesforce lead and contact records to identify duplication patterns, improve matching logic, and recommend scalable cleanup workflows that support future CRM accuracy.
- Analyzed newsletter audience lists during a large-scale regional transition, mapping recipients to appropriate business units and validating alignment with existing CRM records to maintain accurate communication flows.
- Evaluated usage and engagement trends for ready-to-use marketing assets to inform update priorities, regional adoption support, and content distribution strategy.
- Analyzed and modeled RFP pipeline data in Power BI, transforming disparate CRM and tracking sources via a custom fuzzy-matching pipeline to identify \$71M in unattributed net-new business revenue; automated data quality monitoring flagging 36% of records across 500+ accounts and deployed role-based access controls, driving cross-functional alignment toward centralized Salesforce data governance and automated opportunity attribution.

ENVIRONMENTAL PRODUCTS & ACCESSORIES

MARKETING COORDINATOR

SEPTEMBER 2024– JUNE 2025

- Relaunched social channels after five years of inactivity and applied performance metrics to refine content strategy, driving a 4000% surge in engagement within 90 days.
- Executed targeted HubSpot campaigns using audience segmentation and A/B testing, increasing open rates by 13% and click-through rates by 4%.

EAST TN SPINE & SPORT

MARKETING ASSOCIATE

NOVEMBER 2022– MAY 2023

- Analyzed website and blog performance metrics to identify traffic patterns, optimize content, and improve lead conversion.
- Built and tracked a referral pipeline, strengthening 5 dormant partnerships and adding 3 new ones through targeted outreach supported by engagement data.
